

SARANG DEV

Cyber Security

+91-9026824356 — devsarang2004@gmail.com — github.com/shivdev277 — TryHackMe: Top 9%

SUMMARY

Computer Science undergraduate targeting a Cyber Security internship (SOC, penetration testing, or vulnerability research). Six months of production software engineering experience with React.js and MySQL, paired with hands-on offensive security practice across 15+ CTF competitions on Hack The Box and TryHackMe, ranked in the top 9% of users. Comfortable across web exploitation, cryptanalysis, reverse engineering, network forensics, and OSINT.

TECHNICAL SKILLS

- **Security and Pentesting Tools:** Wireshark, Nmap, Burp Suite, Metasploit, Gobuster, ffuf, tshark, Cheat Engine.
- **Security Domains:** Vulnerability assessment, web application security, cryptanalysis, reverse engineering, OSINT, privilege escalation, OWASP Top 10.
- **Programming Languages:** Python, JavaScript, Java, Bash, C++, Solidity.
- **Operating Systems:** Linux (Kali Linux, Ubuntu), Windows.
- **Databases:** MySQL, MongoDB, Firebase.
- **Cloud and DevOps:** Microsoft Azure, GitHub, Docker.

SECURITY PRACTICE AND CTF EXPERIENCE

- **Web Exploitation:** Identified and exploited SQL injection, WAF bypass, and SSRF vulnerabilities across 5+ CTF challenges, including IDOR chaining and magic-bytes upload bypass on TryHackMe's "Grep"; authored a Python proof-of-concept for CVE-2025-55182, a Next.js/React remote code execution vector, in a live Hack The Box environment.
- **Cryptography:** Broke a ChaCha20 stream cipher nonce-reuse implementation (Hack The Box "The Last Dance"), recovered RSA keys with low-exponent attacks via Hastad's Broadcast Attack, and solved classical and affine ciphers.
- **Reverse Engineering:** Bypassed anti-disassembly techniques (ud2/SIGILL) in a compiled binary, performed IL2CPP Unity game analysis with Cheat Engine for dynamic memory inspection, and reversed a PRNG-seeded XOR/bit-rotation cipher.
- **Network and Forensics:** Ran PCAP analysis with Wireshark and tshark to extract credentials and analyze encrypted C2 traffic (RC4/AES-256-CBC); chained an IDOR-exposed PCAP download into FTP credential extraction and SSH access, then escalated Linux privileges via misconfigured capabilities on Hack The Box "Cap."
- **OSINT and Reconnaissance:** Conducted multi-platform username reconnaissance with Sherlock and exiftool, JavaScript bundle extraction on a React/Vite SPA for WHOIS-based investigation, and git commit history forensics to recover a hidden flag.

EXPERIENCE

Full Stack Developer Intern - TRANSMED Project (Remote)

Apr 2025 - Sep 2025

- Maintained a production web platform with React.js and MySQL over a 6-month engagement; delivered 10+ responsive components and integrated REST APIs with optimized MySQL queries while following secure coding practices.

PROJECTS

Image Encryption Tool

Jan 2025 - May 2025

JavaScript - Applied Cryptography

- Engineered a command-line tool that encrypts and decrypts image files with cryptographic algorithms, including robust error handling and input validation to protect sensitive visual data from unauthorized access.

Decentralized Cloud Storage System and Online Voting System

2024 - 2025

Python, JavaScript, Solidity, Web3.js, Ethereum - Blockchain Security

- Designed two blockchain-based applications: a decentralized file storage platform and an Ethereum voting system, implementing Solidity smart contracts for access control and tamper-proof record storage alongside React.js/Node.js full-stack, Web3-enabled frontends.

AWARDS AND RECOGNITION

- **Top 9% - TryHackMe:** Ranked among the top 9% of all users across security learning paths and CTF rooms.
- **15+ Capture The Flag Competitions (2025):** Solved real-world challenges spanning web exploitation, cryptography, reverse engineering, network forensics, and OSINT.
- **Top 15 Finalist - Smart India Hackathon (SIH), University Level (2024):** Recognized among the top 15 teams at the university-level round.

EDUCATION

Bachelor of Technology, Computer Science and Engineering

2023 - 2027

- BML Munjal University, Haryana, India — CGPA: 7.2 / 10
